CIF: RO36421140
Adresa: Strada Apusului nr 3 (primul
sens giratoriu Tehodor Pallady-
Autostrada Soarelui), Catelu, Ilfov
Banca: BRD
IBAN: RO34BRDE441SV13182234410

WIHA WIRE END SLEEVES WITH PLASTIC COLLAR SET

Description

It is especially important for electricians to ensure that individual wires do not get crushed or misdirected when connecting fine-wired lines. If they do, there is a risk of cable breaks or even short circuits, which can potentially cause a fire. Wire-end sleeves can prevent such risks and provide reliable contacts, thus ensuring things work safely for the long term. The conical-shaped collar makes it easier to insert wires into the sleeve. The sleeve also makes it easier to insert the cable into the terminal. The wire-end sleeves are stored in a dispenser for easy use with a latching function to prevent unintentional opening. Wiha halogen-free wire-end sleeves offer heat resistance up to 105 °C. They are manufactured to DIN 46228 specifications, but feature the German colour code (Code 2).

Application

Eminently suitable for connecting fine-wired lines, especially terminal connections.

Greutate:95g

Pret: 0,00 lei (TVA inclus)
