IEK SIGURANTA AUTOMATA VA47-100MA FARA RELEU TERMIC 3P 100A 10KA D

BA47-100MA circuit breakers are designed to protect distribution and group circuits, emergency security systems, fire-fighting and ventilation systems. They are recommended for use in input and output switchgears of household and industrial electrical installations. Reliable short circuit protection.

Complete set of supplementary devices with the possibility of simple independent installation:

- State contact KS47;
- State contact KSV47;
- Undervoltage trip RMM47;
- Low-voltage release RN47.

Indication of contact position.

Latching on DIN-rail with double locking.

Wide operating temperature range from -40 to +50° C.

Updated wider engagement lever with improved contact area.

Notches on contact terminals reduce heat loss and increase mechanical stability of the connection.

Higher switching capacity of 10000A provides for installing VA47-100MA as input circuit breakers. Number of poles: 3
