

Furnizor: **Sc Trivolt Distribution SRL** Reg. com.: J23/3300/2016 CIF: RO36421140

Adresa: Strada Apusului nr 3 (primul sens giratoriu Tehodor Pallady-Autostrada Soarelui), Catelu, Ilfov

Banca: BRD

IBAN: RO34BRDE441SV13182234410

IEK INCALZITOR PENTRU DIN-RAIL 150W IP20

The DIN rail heater is designed to heat the air inside electrical cabinets. The generated convection air flow prevents the formation of low temperature areas and protects electrical components from condensation and freezing during temperature changes, as well as corrosion of the metal elements of the active equipment. The presence of a selfregulating heater ensures natural circulation of heated air inside the cabinet and avoids overheating. When installed in conjunction with the thermostat, it is used to maintain the required temperature inside the cabinet and the organization of stable operation of the installed equipment. It can be used in AC electrical equipment with frequency of 50 Hz and voltage up to 230 V. Dynamic air heating system is the most effective in long-term operation. Connection by means of clamps makes the installation as simple and fast as possible. Compact heaters are made of anodized aluminum profile and have the function of self-regulation, which allows to avoid overheating and maintain fire safety Dynamic air heating system is the most effective in long-term operation and allows you

to significantly save energy consumed.

The optimal shape of the radiator increases the efficiency of heat transfer by increasing the rate of convection while maintaining small dimensions.

Increased service life of heaters with high reliability. Wide range of DC and AC operating voltage.

Wide range of DC and AC operating voltage.
Wide range of nomenclature.Rated power: 150
Type of clamp for wire connection: EV008419
Heating element: IEK_V0000487
Colour housing: EV000206
Nominal rated voltage: 120...240
Operating voltage at AC 50 Hz: 230
Operating voltage at DC: 230

Operating voltage at DC: 230
Voltage type: EV000509
Degree of protection (IP): EV006405
Radiator material: EV000072

Material housing: IEK_V0000486 Section of the connected conductors: 0,5...2,5

Width: 70.0 Height: 220

Depth: 56.5

Continuous heating power at 20: 150

Operating temperature range: -60...+70

Ambient class: IEK_V0000172 Nominal frequency: 50 Pret: 258,62 lei (TVA inclus)
