

Furnizor: **Sc Trivolt Distribution SRL**  
Reg. com.: J23/3300/2016  
CIF: RO36421140  
Adresa: Strada Apusului nr 3 ( primul  
sens giratoriu Tehodor Pallady-  
Autostrada Soarelui), Catelu, Ilfov  
Banca: BRD  
IBAN: RO34BRDE441SV13182234410

### **IEK VENTILATOR CU VFI FILTRU 480 M3/H IP55**

Filter fans are meant for air cooling of active equipment inside electrical cabinets. The generated airflow prevents the formation of highly heated areas and protects electrical components from overheating. The presence of a removable filter prevents the penetration of dust and moisture inside the cabinet, allows you to provide a degree of protection not lower than IP54. By installation in conjunction with the thermostat is used to ensure optimal climatic conditions inside the cabinet and the organization of stable operation of the installed equipment. It is highly resistant to atmospheric and temperature influences, as well as UV radiation. It can be used in electrical equipment of alternating current with frequency of 50 Hz and voltage up to 230 V. The progressive system of air supply makes the fan extremely silent while maintaining ease of maintenance and installation. The air direction can be easily changed by reversing the axial fan. Reduced external dimensions, protruding outside the enclosure.

Progressive air supply system combined with low noise level.

High resistance to atmospheric, temperature and UV radiation.

Compact and aesthetically pleasing in shallow mounting depth.

Optimal and efficient solution for cooling enclosures, while remaining economical.

Functional design, easy to service and install.

Optimal filter media throughput rate.

Easy replacement of filter media. Number of fans: 1

Operating voltage at AC 50 Hz: 230

Voltage type: EV000460

Rated power: 54

Degree of protection (IP): EV006420

Mounting method: EV002068

Width: 320

Height: 320

Depth: 126

Colour: EV000270

RAL-number: 7035

Filter class in accordance with GOST R EN 779: EV000109

Volume flow, freeblowing: -

Ambient temperature: -50...70

Fan performance with filter: 384

Power consumption: 105

Degree of filtration: 94

Weight of fan with filter: 2,1

Ambient class: IEK V0000172

Pret: 0,00 lei (TVA inclus)
