IEK FILTRU WITH GRILLE PENTRU VFI FAN 380 M3/H

Filters with protective casing are designed to prevent the penetration of dust and moisture into electrical cabinets, they allow to provide a degree of protection not lower than IP54. They are installed in a pair with a fan and are used to ensure the circulation of air flow. They are highly resistant to atmospheric and temperature influences, as well as UV radiation. Thanks to the progressive design, the filters are characterized by optimal throughput while keeping ease of maintenance and installation. Reduced external dimensions, protruding beyond the enclosure.

High resistance to atmospheric and thermal effects, as well as UV radiation.

Compact and aesthetically pleasing with shallow mounting depth.

Optimal and efficient solution for cooling enclosures, while remaining economical.

Functional design, easy to service and install.

Optimal filter media throughput rate.

Easy replacement of filter media. Number of fans: 1

Type of ventilation: EV004835

Width: 254

Height: 254

Depth: 24

Material housing: IEK_V0000331

Colour: EV000270

Filter class in accordance with GOST R EN 779: EV000109

Ambient temperature: -50...+70

Compatibility: 380 MVA/3/5 IP55 IEK

Pret: 0,00 lei (TVA inclus)
