IEK RIGID PLAIN HDPE PIPE D50 NEGRU (100 M)

Designed for use in housing and communal services, power supply, telecommunications and, in some cases, for water sewage systems. Used in construction for embedding in concrete, installation of wiring in cement coverings and brickwork, as well as for underground lines. Their usage includes insulation and protection of power cables, data and signal lines, communication lines from mechanical and chemical damage, corrosive factors of environment. Endurance (over 50 years) and high durability.

Technical smooth pipe IEK® from low-pressure polyethylene combines flexibility of corrugated pipe and smoothness of rigid PVC pipe.

The range of LP PE technical pipes includes the pipe of heavy series featured by high strength performances and ability to withstand increased loads. Material: EV003904
