Rubber connectors are intended for using under complex exploitation conditions and are widely applied in manufacturing, construction and machine engineering areas. They are easily mounted, are notable for high reliability and long service life. Range includes the most popular marketed models.

All devices have a drip-proof rubber body.

High insulation and wear-proof characteristics ensure long service life.

Ribs on the body prevent hand slipping when taking the male plug out of the socket.

Additional molding ensures secure plug fixation and prevents moisture ingress.
