

BRILUX TRANSFORMATOR ELECTRONIC 230/12V 60W BRILUX BRILUM

Tensiunea finala:	~11,5V
----------------------	--------

Curentul characteristic:	$I=13A$
-----------------------------	---------

Capacitatea caracteristica:	1000W (400W - capacitate inductiva) la Max. ~250V/50Hz
--------------------------------	--

	Factor de putere:	$\cos^2 \varphi = 0,99$
--	-------------------	-------------------------

	Tipul materialului:	material plastic
--	---------------------	------------------

Temperatura de lucru:	-20°C - +40°C
--------------------------	---------------

	Greutatea produsului:	102g
--	-----------------------	------

Pret: 0,00 LEI (TVA inclus)
