

**LEGRAND VARIATOR - PENTRU FLUORESCENT LAMP CU 0-10 V BALLAST - MAX.
800 VA - 2 MODULE**

Caracteristici tehnice

Remote control dimmers 100 - 240 V~ - 50/60 Hz

Symmetrical rail mounting

The last lighting level is stored into memory, in case of Putere cut or switch-off

Direct or remote control (switching and dimming) with non-illuminated push-buttons

For fluorescent lamps with 1-10 V dimmable ballast

Suitable for fluorescent tubes and compact fluorescent lamps with separated dimmable ballast

Ballast Putere: maximum 800 VA (for 230 V~ 50/60 Hz)

Control current: 50 mA

Numar de module : 2

Caracteristici generale

Lighting management remote control dimmers

Pret: 707,54 LEI (TVA inclus)
