

## **LEGRAND ILLUMINATED OBSTACLE INDICATOR MOSAIC - 2 MODULE - ALB**

### Caracteristici tehnice

For installation in the room

Combination of automatic switches and illuminated signalling

Skirting light with motion sensor

Mechanism equipped with an infrared detection cell and a LED beam

To be installed close to the floor (next to a socket for example)

When someone passes, the mechanism detects movement and switches the light on

Ideal to illuminate a corridor at night without dazzling people, or to highlight possible danger

Equipped with an audible signal that can be deactivated (when product is used for lighting) or not (so as to indicate danger)
