

LEGRAND REMOTE CONTROL VARIATOR - PENTRU FLUORESCENT LAMP CU 0-10 V BALLAST - 4 MODULE

Caracteristici tehnice

Remote control dimmers 100 - 240 V~ - 50/60 Hz

Symmetrical rail mounting

The last lighting level is stored into memory, in case of Putere cut or switch-off

Direct or remote control (switching and dimming) with non-illuminated push-buttons

For fluorescent lamps with 1-10 V dimmable ballast

Suitable for fluorescent tubes and compact fluorescent lamps with separated dimmable ballast

Ballast Putere: maximum 1000 VA (for 230 V~ 50/60 Hz)

Control current: 50 mA

Equipped with illuminated scale indicating the light level of controlled lamps

Numar de module : 4

Caracteristici generale

Lighting management remote control dimmers

Pret: 1.398,77 LEI (TVA inclus)
