

IEK DESCARCATOR OPS-1-D 4P IN=5KA UN=230B IM=10KA

Surge protective devices OPS1 are intended for protection of internal distribution networks of residential and public building from lightning and surge overvoltages. Correspond to the requirements EN 61643-11.Improved reliability of suppressor by reducing power dissipation. Improved rating of residual voltage arising at surge overvoltage. High level of fire protection is provided by reliable thermal protection.Mounting method: EV005503 Nominal voltage AC: 400 Nominal voltage DC: 440 Total discharge current (8/20) (L+N-PE): 10 Voltage protection level : -Voltage protection level L-PE/N-PE: -Number of poles: 4 Signalling at the device: EV000428 Degree of protection (IP): EV006405

Pret: 370,19 LEI (TVA inclus)
