

IEK TRANSPENTRUMATOR REDUCTOR DE CURENT TRP-812 1000/5 5BA
ACCURACY CLASS 0,5

IEK TRP dismountable current transformers are intended for: – Applying in electric power metering circuits for calculations with consumers; – Applying in commercial electric power metering circuits; – Transmitting metering information signals to measuring, protection and control devices. TRP casing is made of self-extinguishing plastic.

Each transformer set includes a cover shielding the secondary terminals.

TRP transformers are completed with screws and nuts for conductors' fixation. Model: EV009515

Primary rated current: 1000

Secondary rated current: 5

Accuracy class: 0,5

Accuracy class: 0,5

Secondary rated apparent power: 5

Opening height: 120

Opening width: 80

Secondary connection: EV000415

Max operating voltage: 0,72

Nominal frequency: 50

Nominal voltage: 660

Pret: 442,87 LEI (TVA inclus)
