

IEK NEUTRAL BUS BAR IN BODY-IZOLATOR ONTO A DIN-RAIL SHNI-6X9-12-K-AVERAGE

Neutral bus bars with SCHNI-type insulator are intended for electric and mechanical connection of neutral operating and protective conductors. Constructively, SCHNI buses are made of a latten alloy bus placed onto a plastic insulator made of self-extinguishing plastic. Standard exploitation conditions: - ambient temperature: from -40 to +50 C; - relative humidity: under 90%. Can be mounted on a DIN rail and mounting panel. The bus insulator is made of non-combustible materials. Rated current In: 100

Material: EV000149

Type of surface: EV006034

Number of conduit outlets: 12

Attachment screws: EV009090

Nominal voltage: 400

Max. conductor cross section: 10

Ambient temperature: -40...50

Width: 88

Height: 31

Depth: 13,5

Number of buses: EV000599

Model: EV000154

Pret: 8,84 LEI (TVA inclus)
