

IEK BUSBAR PIN TYPE (12 PINS) 1P 63A 22 SM

Bridging bars are applied for convenient and safe connection of various groups: VA (MCBs), AD (RCBOs), VD (RCCBs) and VN (modular disconnectors). Buses with 18mm step are intended for commuting one-module fold wide equipment; 27 mm step buses are designed for 1,5 module-fold wide devices. Buses are optimized per rated current of 100 A but can be used with rated current of 125 A if the incoming switch is connected on the center. There are plugs intended for 1,5 module wide buses. Made of copper plates and placed in a plastic insulating flame-retardant housing. Maximum number of connected devices: 12

Pitch dimensions: 18

Cross section: 78

Length: 220

Rated permanent current I_u : 63

Type of electric connection: EV000158

Rated surge voltage: 4

Rated short-time withstand current I_{cw} : 12

Number of poles (total): 1

Nominal voltage: 230/400

Weight: 0,15

Ambient temperature: -45...+40

Rated insulation voltage U_i : 600

Number of phases: 1

Pret: 14,93 LEI (TVA inclus)
