

IEK PRESETUPA D=20MM (ENCLOSURE OPENING DIAMETER - 22M M) GRI

Glands are intended for connecting cables into the electric panel equipment in order to protect conductors from mechanical damage and the assembly itself from dust and moisture ingress at the input. Have a high degree of IP protection. Nominal diameter: 20

Nominal size PG: -

Sealing range: 0...20

For wall thickness: -

Degree of protection (IP): EV006419

Material: EV000139

Colour: EV000270

Suitable for cable diameter: 4,0...15,5

Material quality: EV001608

Operating temperature: -40...80

Diameter of box hole: 22

Type of sealing: EV003719

Pret: 0,66 LEI (TVA inclus)
