

IEK JUMPER PENTRU KPI-2,5MM2 2PIN

Jumpers (comb busbars) are used to electrical connection of rows of terminal assemblies of spring type (KPI spring terminals) in distribution systems. They are installed in the corresponding slots. They are made in the form of copper plates with 2, 3 or 10 outlets of pin type, enclosed in an insulator. Double functional series of jumpers facilitates the task of potential distribution. Model: EV005494

Number of bridged clamps: 2

Rated current In: 24

Mounting method: EV005280

Colour: EV000233

Pret: 4,42 LEI (TVA inclus)
