

IEK FASTENING KIT KFK15-57.6 ECOLINE

Facade fastening kit of KFK type are intended for suspension fixation and batch bundling of self-supporting insulated conductors (SSIC) under 1 kW on bearings and building walls. Bodies are made of polymer resistant to UV and weather conditions. Dowel part of fixtures is installed into 12 mm hole and fixed with a nail. KFK kits are supplied with a special channel allowing carrying out laying the second cable line along the existing one using a HS strap. Fastening sets are intended for facilitating SSIC mounting when arranging branching from the bearings or connecting SSIC to the building. KFK kits are supplied with a special channel allowing carrying out laying the second cable line along the existing one using a HS strap.

Fastening sets are intended for facilitating SSIC mounting when arranging branching from the bearings or connecting SSIC to the building. Model: EV007973

Material: EV000139

Material quality: EV000154

Colour: EV000206

Diameter fixed wire bundles: 15...57

Operating temperature: -60...70

Operation temperature: -60...70

Max. bundle diameter: 57

Band closure: EV009884

Ultimate load: 198.0

Max. load: 20

Text strip: EV000494

Type of fastening: EV010090

Drill hole diameter: 12

Drill hole depth: 60

Distance to wall: 60

Length belt/tape/tie: 180

Tie thickness: 2.00

Band width: 9.0

Pret: 7,52 LEI (TVA inclus)
