

IEK KI 6-35 SEALED CAPS (CECT 6-35)

KI sealed caps are intended for termination (insulation restoration) of bare SSIC end as well as for protecting them from air and moisture ingress. These devices are made of polymer with addition of fiber glass material resistant to UV and weather conditions. The caps can sustain 6kV of breakdown voltage underwater. They do not require any installation tools. The caps can sustain 6kV of breakdown voltage underwater.

They do not require any installation tools. Number of cores: -

Core cross section: 6...35

Conductor diameter: 4,5...11,5

Material: EV000139

Breakdown voltage: 6

Colour: EV000206

Pret: 0,42 LEI (TVA inclus)
