

IEK GIA10-16 INSULATED BUSHINGS (MJPB 10-16)

GIA bushings for self-carrying wires serve for mechanical and electrical connection of self-supporting wires. Admitted mechanical stress on the crimped connection for carrying wires makes up 40% of its tensile strength when connected to a SSIC wire and 20% in case of copper wire crimping.GIA bushings for selfcarrying wires serve for mechanical and electrical connection of self-supporting wires.
