

IEK TERMOCONTRACTIBIL PKV(N)TP 4X70/120 WITH PVC ISOLATION 1KV

PKV(N)tp-1 and PKVtp-1 heat-shrink sleeves are designed for termination of aluminum or copper conductors of cables with plastic, rubber and polyethylene insulation for voltages up to 1 kV: AVVG-1, VVG-1, AVVG2-1, AVVG2-1, PvVG-1, their equivalents and versions.Quick and easy mounting of heat-shrink components using gas torch or high-temperature drying fan.

Perfectly leak-tight sleeve design due to:

- use of high-quality two-layer heat-shrink materials;

- adhesive thermomelting coating on inner surfaces of heat-shrink tubes and multiple cable joints. Wide range of products, with several versions of sleeve supply: without lugs, with bolted lugs having breakout heads, with compression lugs.Suitable for: EV009707 Model: EV004267 Voltage row: EV004258 Nominal cross section: 70...120 Type of insulation material: IEK V0000184 Installation Type: IEK_V0000187 Complete set: IEK_V0000188 Number of cores wiring: 4 Tip Type: IEK V0000189 Nominal voltage: 1 Material: IEK V0000193 Min full shrinkage temperature: 120 Operating temperature range: -45...+50 Shrink rate: EV009535 Number of conductors: 4 Pret: 317,58 LEI (TVA inclus)
