

IEK TERMOCONTRACTIBIL PKV(N)TP 5X16/25 WITH PVC ISOLATION 1KV

PKV(N)tp-1 and PKVtp-1 heat-shrink sleeves are designed for termination of aluminum or copper conductors of cables with plastic, rubber and polyethylene insulation for voltages up to 1 kV: AVVG-1, VVG-1, AVVGz-1, VVGz-1, APvVG-1, PvVG -1, their equivalents and versions. Quick and easy mounting of heat-shrink components using gas torch or high-temperature drying fan.

Perfectly leak-tight sleeve design due to:

- use of high-quality two-layer heat-shrink materials;
- adhesive thermomelting coating on inner surfaces of heat-shrink tubes and multiple cable joints.

Wide range of products, with several versions of sleeve supply: without lugs, with bolted lugs having break-out heads, with compression lugs. Suitable for: EV009707

Model: EV004267

Voltage row: EV004258

Nominal cross section: 16...25

Type of insulation material: IEK_V0000184

Installation Type: IEK_V0000187

Complete set: IEK_V0000188

Number of cores wiring: 5

Tip Type: IEK_V0000190

Nominal voltage: 1

Material: IEK_V0000193

Min full shrinkage temperature: 120

Operating temperature range: -45...+50

Shrink rate: EV009535

Number of conductors: 5

Pret: 131,74 LEI (TVA inclus)
