

IEK ENCLOSURE PENTRU KMI 9-18A IP54

The protective shell is used to ensure the degree of protection IP54 according to GOST 14254-96. The shell with the degree of protection IP54 allows the contactor to be used on construction sites, in paint, thermal and electroplating shops (provided that the equipment is placed under a protective canopy). Rated control supply voltage U_s at AC 50HZ: 230; 400

Rated control supply voltage U_s at DC: -

Voltage type for actuating: EV000460

Rated operation power at AC-3, 400 V: 4; 5,5; 7,5

Rated operation current I_e : 18

Conditioned rated short-circuit current I_q : -

Setting range over-current release: -

Connection type main current circuit: EV000154

Degree of protection (IP): EV000154

Pret: 95,07 LEI (TVA inclus)
