

IEK VK300-BR-11-67U2-21, IP67,

IEK limit switches are designed for switching AC and DC electric control circuits under the influence of control stops at certain points on the path of the controlled object. Switches are made in accordance with the requirements of GOST 30011.5.1. High switching endurance. Contact group of copper with silver coating. Compact dimensions. Reliable fixation of conductors.Width sensor: 60.0 Diameter sensor: -Height of sensor: 71.0 Length of sensor: 122.0 Rated operation current Ie at AC-15, 230 V: 16 Switching function: EV000533 Number of contacts as normally closed contact: 1 Number of contacts as normally open contact: 1 Number of contacts as change-over contact: 0 Type of interface: EV000494 Housing according to norm: EV000154 Material housing: EV000914 Coating housing: EV008895 Type of control element: EV000529 Alignment of the control element: EV000154 Type of electric connection: EV000154 Explosion safety category for gas: EV000494 Explosion safety category for dust: EV000494 Ambient temperature during operating: -50...+50 Degree of protection (IP): EV006423

Pret: 107,73 LEI (TVA inclus)
