

IEK CONNECTOR WITH BOLT GD 16-25 35KW

The bolted terminals and sleeves, like compression terminals and sleeves, are designed for termination of conductors. However they can be fixed without use of expensive equipment. A torque wrench is sufficient. Moreover, their unquestionable advantage is a capability to be used for termination and connection of both copper and aluminum conductors. All products have conductivity according to GOST 17441-84. Applicable for copper and aluminum cores.

The retaining divider on the inside.

No special tool is required for installation. Nominal cross section: 16...25

Nominal voltage: 35

Material: IEK_V0000333

Number of screws: 4

Surface protection: EV000899

Ambient temperature: -60...+80

Voltage row: IEK_V0000265

Pret: 35,04 LEI (TVA inclus)
