

IEK HYDRAULIC CABLU CUTTING NG-50

The cutting tools for cables with plastic and paper insulation is made from free-cutting tool steel. Special configuration of blades allows working safely and quickly. It is featured by high stability and low weight. The segment shears are fitted with ratchet mechanism, extendable handles, cutting lock. The locking mechanism design allows for the blade reverse motion that is necessary when foreign objects are seized in the shears. Extremely high cutting performance of the tools is ensured by optimum design of the shears and cutting blades of special shape. Maintainable in terms of replacement of sealing materials.

Protective case included. Construction/operation: EV004547

Suitable for maximum cable diameter: 50

Max. cable cross section: 50

Total length: 630

Overall dimensions of VhDhSh of packing: 230?665?185

Max diameter of a cable armored: 45

Max diameter of a cable telephone: 50

Net weight: 7.00

Gross weight: 22.50

Cutting force: 60

Volume of working liquid: 80

Working liquid: IEK_V0000275

Maintainability: IEK_V0000277

Operating temperature range: -10...50

Pret: 2.113,06 LEI (TVA inclus)
