

## **CONTACT ITALIA REGLETA COMPONIBILA DE TRECERE CU CLEMA 6MM TRANSPARENTA**

Gama de produse este formata din trei modele cu un singur pol MC06, MC16, MC35 care permit introducerea firelor cu sec?iuni max respectiv de 6 mm<sup>2</sup>, 16 mm<sup>2</sup>, 35 mm<sup>2</sup>.

Modele cu aceeasi sectiune pot fi asamblate in diferite configuratii de la doua pana la cinci poli. In combina?ie cu trei si cinci poli rezultatul este o structura piramidala care optimizeaza utilizarea spatiului, in special in aplica?iile de imbinari de rasini si gel. De asemenea, este posibil s? se creeze modele cu diferite sec?iuni, practic regletele se pot amesteca intre ele.
