

**GTV SINA - BUSBAR 1-PHASE, 2-LINE, SURFACE-MOUNTED OR SUSPENDED,
LENGTH 1M, BLACK**

The single-phase busbar is a versatile and modern solution for lighting systems, designed for flexibility and ease of installation. This unique product can be mounted directly to the ceiling or hung on cables, giving you the freedom to create your lighting space. It should be noted that the busbar does not include a power terminal.

Adapted to work with a voltage of 220-240

V, the busbar guarantees reliability and safety of use. An additional advantage is the ability to connect the rails to each other using dedicated connectors, which allows you to create personalized lighting configurations according to individual requirements and preferences. This solution is ideal for those who are looking not only for functionality, but also for aesthetics and modernity in lighting design. Length 1

meter Voltage 220-240 V
