

GTV SPOT - CEILING FIXTURE ASTER, AC220-240V, 50/60 HZ, GU10, MAX.20W, IP20, ALUMINUM, SINGLE, WHITE

Aster ceiling lamp fixture, a unique functional accessory

The Aster LED ceiling fixture expresses a minimalist yet refined modern style. With its apparently simple form, it blends very smoothly in a variety of interior designs. Lofts, Scandinavian or modernist interiors – these are just a few of the many different ways in which the Aster collection of fixtures can be adapted to suit your style. The Aster lamp fixture was created in a

choice of two versions, single and two-spot ones. The sharp lines of the finish based on a square or rectangle emphasise the modernity of the product's form. The Aster LED fixture is available in two basic colours for an easy selection of the option best suited to personal preferences. The subtle white with black accessories blends into the background, merging with the colour of the ceiling, while the version in black adds stylish elegance in an innovative vision of luxury.

The Aster ceiling lamp fixture is made of durable and wear-resistant aluminium. The light beam angle is adjustable, which expands the already extensive list of advantages of this model. The Aster allows both a spotlight effect, or a

more diffuse lighting effect to be achieved using several fixtures in any version. A metal body matches perfectly rooms in a modern style;

Modernity and elegance of the fitting create an original atmosphere in the interior;

Elegant white colour combined with black, in the form of details, will introduce luxury and refined elegance to any home;

Careful workmanship guarantees long-term use;
