

GTV LAMPA TAVAN - CEILING FIXTURE GIJA,2751, TRIANGLE,AC220-240V,50/60HZ,1*E27,MAX.40W,IP20,38CM X 10CM ,SINGLE, GREY

GIJA lamp is a

proposal for lovers of modern and Scandinavian style. Both styles focus on the geometrization of objects and smooth shapes, and minimalism is what distinguishes this collection of lamps.

The single-point, triangular lamp can be used as additional source of light in the living room, kitchen or dining room. In larger rooms, it is recommended to use several lamps next to each other. It also matches the LIJA (square) and FIJA (round) lamps, as the charm of this unique collection lies in its simplicity and variety at the same time.

Using lamps with a

visible light source, please keep in mind to choose the appropriate shape and colour of the bulb. We recommend FILAMENT light sources with a warm light colour in the range of 2700-3000

K. These light sources combine advanced LED technology with a classic look. Modern shapes of the bulbs in this style are a decorative element even with the lights off. The combination of a

classic style with an energy-saving solution is not only an effective element of interior furnishing but also a much better solution for the environment. Universal lamp for interiors in both modern and Scandinavian style;

The geometric shape can be used in any interior – in the kitchen, living room, children's room and teenagers' room;

Timeless, universal, and always fashionable grey colour;

Meticulous workmanship guarantees long-term use;

Medium-sized lamp for one light source – the side length of the triangle is 32 cm. Power of light source or device max.40 W
