

GTV LAMPA TAVAN - CEILING FIXTURE LARS,2233,AC220-240V,50/60HZ,1*E27, IP20, DIAMETER 26 CM,SINGLE,BLACK

The loft-style lamp is perfect for interiors in which the building's construction materials are exposed. Wood, brick, or pipes exposed in the room are an ideal background for the LARS ceiling luminaire.

The LARS ceiling luminaire is a perfect solution for any living room, kitchen, or dining room design. It also looks great in restaurants and cafes decorated in a loft style and in interiors with high ceilings.

The lamp is made of high-quality steel, which ensures high product quality. The most characteristic element of the LARS luminaire is the exposed bulb secured with a black grating, with an extremely modern industrial shape. Therefore, the FILAMENT-style bulb adds special character to the LARS luminaire, which combines advanced LED technology with a light source with a

classic look. Modern shapes of the FILAMENTS are a decorative element even with the lights off. The combination of a classic style with an energy-saving solution is not only an effective element of interior furnishing but also a much better solution for the environment. The metal lampshade fits perfectly into the fashionable loft-style, using such raw materials as brick, concrete, old wood;

The grating adds charm and elegance to the lamp, and when turned on, the emitted light creates a beautiful effect of light and shadow;

The exposed bulb is also a decorative element, so the lamp fits perfectly with the GTV FILAMENTS;

Smart and fashionable black colour fits perfectly into any interior;

Medium-sized lamp for one light source – the diameter of the lampshade is 26 cm. Power of light source or device max.40 W
