

**GTV LAMPA TAVAN - CEILING FIXTURE MARITE,7061,AC220-240V,50/60HZ,1\*E27, IP20, DIAMETER 26 CM,SINGLE,BLACK**

The MARITE lamp is a great choice for those who want to arrange their interior in a retro or vintage style. It fits both the living room, kitchen, and dining room. The MARITE pendant lamp has a seemingly simple design. The lampshade in this model is slightly flattened. It was made of tinted glass, which beautifully diffuses light in the interiors. A characteristic element of the MARITE luminaire is a delicate, tonal transition from the transparent glass at the base to the intensely coloured piece at the very tip of the lampshade. With this trick, the lamp makes the interior design efficient and stylish. In lamps where the light source is visible, it is best to use a FILAMENT-style bulb that combines advanced LED technology with a classical look of the light source. The various shapes of bulbs in this style are a decorative element even with the lights turned off. The combination of a classic style with an energy-saving solution is not only an effective element of interior furnishing but also a much better solution for the environment. The glass, coloured lampshade fits perfectly into vintage and retro rooms, creates the best combinations with interiors with dark and warm colours, and looks beautiful with wooden accessories; The lamp fits in the living room, kitchen and dining room, and looks perfect over the table; The glass shade exposes the light source very well, hence a FILAMENT-style bulb adds additional charm and character thereto. Meticulous workmanship guarantees long-term use; Medium-sized lamp for one light source – the diameter of the lampshade is 26 cm. Power of light source or device max.40 W Weight 1200 g Voltage 220-240 V Material glass + metal Base type E27
