

GTV LAMPA TAVAN - CEILING FIXTURE SELVIA ,3208, AC220-240V,50/60HZ,1*E27, IP20,12CMX19CM,SINGLE, GOLD

Metal in the interior design enjoys unflagging popularity. An industrial style loves this cold material. There are metal worktops in kitchens, metal lamps, furniture, and even stairs in rooms. Due to its brass finish SELVIA matches perfectly this trend.

SELVIA looks the prettiest in a

group. We recommend hanging 3

lamps side by side but each at the different height. A dynamic and delicate at the same time composition will be created in this way.

A brass finish in combination with the warm light of the filament bulb will create a

friendly, homely atmosphere. The brass, metal lampshade matches perfectly rooms in modern and loft styles;

Hanging several lamps side by side gives a

great effect;

Even when the light is turned off, the lamp is a

decorative element;

Middle size lamp for one light source – the diameter of the lampshade is 12

cm. Power of light source or device max.40 W

Weight 650 g

Voltage 220-240 V

Material metal
