

GTV LAMPA TAVAN - CEILING FIXTURE SKANDI 2,7382,AC220-240V,50/60HZ,1*E27, IP20, DIAMETER 35 CM, SINGLE, BLACK

The modern SKANDI luminaire is a perfect solution for those who arrange their interiors in a Scandinavian and minimalistic spirit. The luminaire combines the features of loft and modern style. SKANDI lamp is an example of a functional interior design using only a few decorations. Sometimes one detail is better than several decorations – and this is the case here. The modern fixture from the GTV Decor collection looks perfect over a table in the dining room or in an open living room. It looks particularly interesting against the background of “ragged” decorative brick, which can be found more and more often in pubs and offices. It perfectly complements interiors equipped with dark, raw elements, such as metal shelves or tables with hairpin legs. Shades of grey, black, and white prevail in such industrial spaces. The arrangement with the SKANDI luminaire is complemented by the use of light sources with filaments, especially in the smoky variant. The modern shapes of bulbs in this style are a decorative element even with the lights turned off. The metal lampshade fits perfectly into loft, vintage, and retro interiors;

The modern shape blends in any interior owing to the conservative aesthetics;

The elegant and fashionable black colour is a perfect solution in any interior;

Meticulous workmanship guarantees long-term use;

Medium-sized lamp for one light source – the diameter of the lampshade is 35 cm. Power of light source or device max.40 W
