

GTV LAMPA TAVAN - CEILING FIXTURE TESS,2516,AC220-240V,50/60HZ,1*E27, IP20, DIAMETER 24 CM,SINGLE, GOLD

TESS luminaire is the perfect solution allowing to display construction materials of the interior – the wire lampshade fits in this design trend. The original design of the lamp is based on a fashionable loft style dominated by raw materials: brick, metal, and glass. TESS creates the impression of an open shade and does not overwhelm the interior. The navy blue metal lampshade in the shape of a rounded cone harmonizes well with the golden mount. The combination of navy blue colour with gold makes the lamp look extraordinary, eye-catching and adds a unique character to the interior. This makes it a great decoration in a

living room or an open kitchen, e.g. over a large wooden table. It looks perfect and stylish against a brick wall. Modern light sources with filaments, which look great even with the light turned off, add a special character to the TESS luminaire. The metal lampshade fits perfectly into loft, vintage, and retro interiors;

The unconventional shape and form of the lampshade is a form of interior decoration;

The elegant, and fashionable combination of navy blue with gold highlights the sophisticated beauty of the luminaire – shades of gold add elegance to the interior, but also attract the eye and brighten the room; The wire form adds the lamp charm and elegance, and when turned on, the emitted light creates a beautiful play of light and shade;
