

GTV LAMPA TAVAN - CEILING FIXTURE TESS,2578,AC220-240V,50/60HZ,1*E27, IP20, DIAMETER 24 CM,SINGLE, BLUE

TESS luminaire is the perfect solution allowing to display construction materials of the interior – the wire lampshade fits in this design trend. The original design of the lamp is based on a fashionable loft style dominated by raw materials: brick, metal, and glass. TESS creates the impression of an open shade and does not overwhelm the interior. The lamp in the shape of a rounded cone in golden colour is a pleasant addition in interiors dominated by warm colours. It also makes the interior look cozier, fresher and gives it the noble twist. It is worth knowing that golden lamps are currently at the cutting edge of new trends. Modern light sources with filaments, which look great even with the light turned off, add a special character to the TESS luminaire. The metal lampshade fits perfectly into loft, vintage, and retro interiors;

The unconventional shape and form of the lampshade is a form of interior decoration;

The elegant golden colour of the luminaire adds luxury, refined elegance, and chic to any home;

The wire form adds the lamp charm and elegance, and when turned on, the emitted light creates a beautiful play of light and shade;

Medium-sized lamp for one light source – the diameter of the lampshade is 24 cm. Power of light source or device max.40 W
