

GTV LAMPA TAVAN - CEILING FIXTURE ZENIT, 4895,AC220-240V,50/60HZ,1*E27, IP20, DIAMETER 23 CM,SINGLE, GREY

A classic pendant dome-shaped lamp has a very aesthetic metallic finish and it will surely add modern design to any home. When designing an interior, it is worth remembering that the metallic gloss of lamps is a real designer hit in the last interior design season.

A heavy, metal lampshade will match perfectly the interiors decorated in industrial or vintage styles – it can be combined with raw brick, concrete, stone or dark furniture, because it counterbalances their severity. On the other hand, the fixture is extremely chic – it will be an excellent choice for rooms decorated in a modern style, in which we focus on quality, not quantity, because it is a type of chandelier that catches the eye.

We will gain a very cosy effect by hanging a few lamps side by side.

A characteristic element of ZENIT fixture is the lamp fixing that can be associated with the stirrup of a saddle or early industrial lamps. In this case, its aesthetic finish will be a great decoration no matter where it will be hung. A dome lampshade with a beautiful, metallic finish – a few metallic details that catch the eye in the room can completely change its look and give it expressiveness and nobility;

The classic shape can be used in any space – a living room, a kitchen and a bedroom;

The lamp is a great addition to wooden floors, white walls or more original decorative elements, such as concrete; It fills the space with soft, cumulative light, creating a pleasant atmosphere;
