

**GTV LAMPA TAVAN - CEILING LUMINAIRE SELVIA II, 6010, MAX. 250V, 50/60HZ,
1*E27, MAX.40 W, IP20, AVG. 30 CM, NAVY BLUE**

Selvia II ceiling lamp is an excellent choice for cosy living rooms, kitchens, dining rooms, but also offices or public spaces, for example cafes or restaurants, where practical functionality in a refined design is important.

Selvia II pendant lamp is a nod to a

balanced style, in which a simple form creates a

beautiful effect thanks to colours, light reflection and refined details. Its universal character allows for its easy adaptation to arrangements in public and private spaces. A well-thought-out functional concept guarantees perfect lighting of the selected space.

Selvia II pendant lamp is the quintessence of elegant minimalism. A round metal lampshade with a golden interior creates an amazing light-diffusing effect. It provides a very good level of illumination. There are four attractive colours to choose from, thanks to which you can easily match the model to your arrangement. All variants contrast fantastically with the golden interior: elegant black, subdued red, stylish navy blue and shimmering, classic gold. A pendant lamp for fashionable interiors, keeping up with the trends.

A well-thought-out visual form that will add elegance to minimalist, elegant or eclectic interiors.

Well-thought-out functionality in which light is diffused exactly where it is missing.

Refined details create a

lamp that looks great in private and public spaces. Producent code OS-SELVII-25-DEC

Pret: 99,49 LEI (TVA inclus)
