

**GTV CORP DE ILUMINAT - VEIOZA FLOWER ,4W, 240LM.AC220-240V,  
4000K,BATERIA 1800MAH, RA>80, BLACK/WHITE**

Flower is a portable desk lamp equipped with an efficient 1800 mAh battery. The battery is charged by a 150 cm long USB cable included in a set.

As befits a modern structure, the lamp does not have a classic switch, only a touch panel marked with a characteristic red strip. After touching it, the lamp lights up smoothly to reach its full power after a while. Similarly, when turning it off, the light is slightly dimmed until it is completely turned off. The centre of gravity of the lamp is located together with the battery in its base, therefore, despite its small surface, it provides a stable support. Built-in 1,800 mAh battery;  
Touch switch;  
Soft Start function. Voltage 220-240 V  
Base type Led  
Producent code LB-FLOW4W-06-DEC  
Pret: 0,00 LEI (TVA inclus)
