Geometric shapes are the hallmark of modern design that has been the most frequently chosen style by architects for many seasons.

MEDIO series of fittings is in line with modern arrangements of gardens and building facades. Any light source with an E27

thread and power not exceeding 15

W can be used as a

light source. However, ST64

filament light sources from the Vintage and Smoked series look the best. Modern design;

Resistant to weather conditions; Producent code OS-MEDP50-30
