

<u>GTV SURSA LUMINOASA - LED LIGHT, SEMI-TRANSPARENT FILAMENT, C35L,</u> <u>4000K, E14, 4W, 420LM, AC220-240V/50-60HZ, RA>80, 360DEGREES</u>

Filament light sources, unlike standard LED sources, light up with their entire surface. Why did we use a milky bulb in MILKY series, hiding the filaments? Because we understand that their visibility is not always desired or liked. A neutral colour temperature does not strain the eyes and it helps to focus attention. Unlike a warm colour temperature, it shows true colours because it does not emit yellow colour. They should be used in studies, kitchens and bathrooms. 360 degree beam; filament in a milk bulb: a wide selection of bubble shapes; 4 W; E14; 420 lm: 4000 K; 13 g. Power of light source or device 4 W Voltage 220-240 V Color temperature 4000 K Base type E14 Luminous flux 420 lm Producent code LD-C35FL4M-40L Pret: 0,00 LEI (TVA inclus)
