

GTV LAMPA TAVAN - SUSPENSION KIT FOR SENSА LIGHT FIXTURE, 1.5M WIRE, ROUND, WHITE

Surface-mounted ceiling luminaire Sensa – industrial elegance

Sensa surface-mounted ceiling luminaire is a

modern lighting in a

subtly minimalist edition. It blends in with modern, Scandinavian or industrial style. Devoid of ornaments, it perfectly harmonizes in a

variety of aesthetics, facilitating interior design. It will work as spot lighting in offices, houses or public premises.

Despite the simple formula, it is in itself a

subdued decoration, subtly blending into the background. The Sensa ceiling lamp is available in two simple shapes – on the basis of a

circle and a

square. In both cases, the designers provided two color options – classic white and elegant black. Small

dimensions make the surface-mounted luminaire a

very graceful object in creating multi-point compositions, always in accordance with individual expectations.

Sensa surface-mounted ceiling luminaire has a

movable head, thanks to which you can adjust the angle of incidence of light to your needs.

Luminaire adapted to MR16

sources;

The luminaire does not include a

socket for connecting a

light source. Material metal

Producent code OP-SENZWOKB-10
