

**GTV CORP DE ILUMINAT - VEIOZA MUNO, 5389, MAX.250V, 50/60HZ, 1\*E27, MAX.25 W, DIA.25 CM, IP20, GREEN**

Muno table lamp is a carefully thought-out concept in a glamour style that will add glamour to the interior, diffusing light and adding cosiness after dark. The refined visual form in a harmonious combination of glass and soft fabric is a bull's-eye where fashionable style counts. Thanks to the densely pleated fabric of a conical lampshade, the emitted light is warm, it does not glare in the eyes and it falls in a diffused stream in the lamp area. Glass, decoratively embossed base adds shine, reflecting light and creating a sparkling effect of subtle flares. Muno table lamp is an excellent choice where functional lighting is to be a characteristic decorative accent at the same time. The table lamp from the Muno collection has been designed for refined glamour style arrangements. It complements their glamour, perfectly matching the decorative character of such interiors. Glass embossed in elegant rhombuses, pleated fabric and additions of shiny metal create an original whole, which, even when the table lamp is turned off, is a beautiful decorative accent in an elegant space. Three colours to choose from: shimmering beige, subdued anthracite grey and deep green. An elegant form of table lighting in a truly living room style. Fashionable design for glamorous interiors. The combination of soft fabric with shimmering glass creates an original and dazzling effect. Create the most beautiful arrangement with the pendant lamp from the Muno series. Producent code OS-MUNO-26-DEC  
Pret: 181,78 LEI (TVA inclus)
